

How to Find L2 Universes in IQ

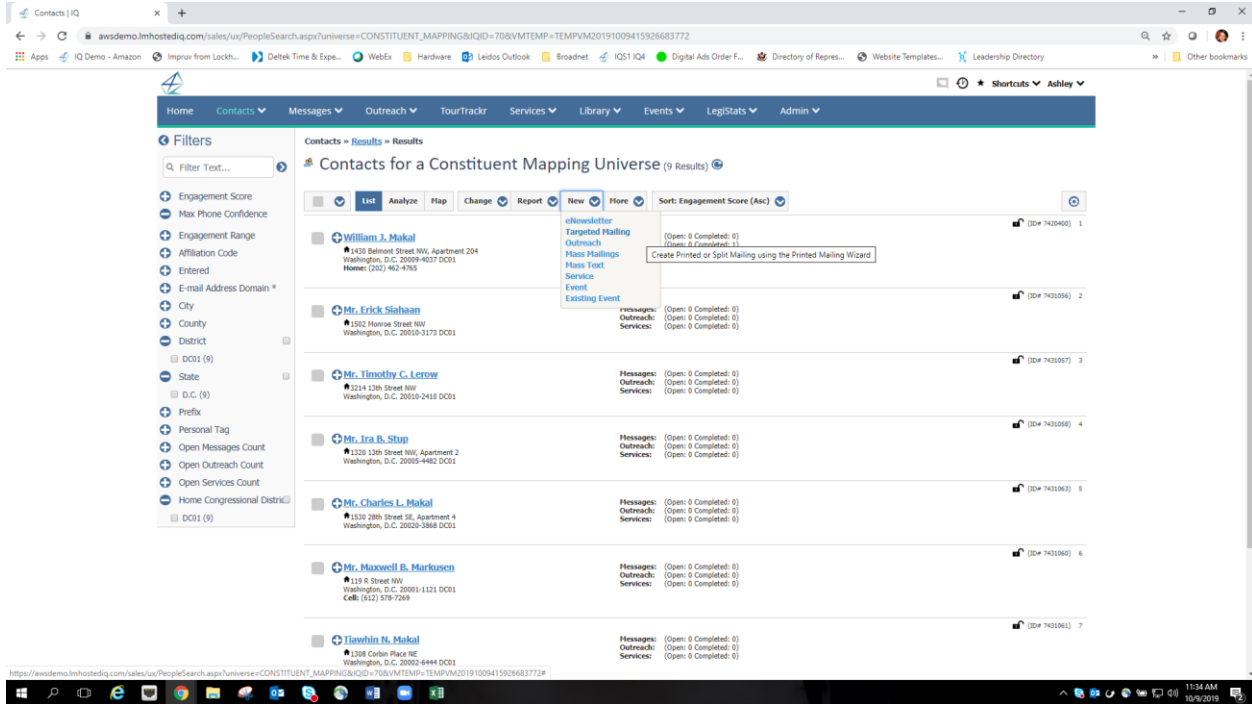

Any list you save under “Universes” on the right side of the screen in Constituent Mapping will automatically show up in IQ under Contacts big menu Constituent Mapping Universes.

Here you'll see a list of all universes you've created. Simply click on import universe directly above the name of the universe.

Then you're presented with a list of contacts and can take action on this just as you would with any list of constituents in IQ. You can use this for a new eNewsletter, save the list for a telephone town hall, or tag and update with affiliation codes.

The screenshot displays the 'Contacts | IQ' interface. The main heading is 'Contacts for a Constituent Mapping Universe (9 Results)'. The table lists the following contacts:

Contact Name	Address	City	State	Zip	Phone	Actions
